

## Grants for Organizations and Schools Fiscal Year 2016: Arts Learning Grants for Schools

### Program Description

Arts Learning Grants provide matching funds for quality arts learning projects which support lifelong learning in, through and/or about the arts. Arts Learning Grant applicants apply based on their entity type: schools/school districts and community/service organizations.

**Arts Learning Grants for Schools** are available for schools and school districts working with teaching artists to design and deliver high-quality arts learning projects for students and/or educators, and can take place in a variety of settings and formats, including in school, afterschool, summer/inter-session and in-service.

Arts Learning Grants for Schools support a wide range of projects, including those which:

- Make the arts an essential, fundamental part of school curriculum.
- Provide more than a simple exposure to the arts and take place over a period of time with a group of identified participants.
- Provide professional development opportunities for educators and/or administrators.
- Develop partnerships among artists, arts organizations, classroom teachers, arts specialists and the community.
- Build support and visibility for the arts and arts education.
- Focus on learning in, through and/or about the arts. If Arts Integration is the focus, the arts should be as significant as the other disciplines in the project design.

### How to Apply

All applications must be submitted online through GO!EGOR, (<http://arizona.culturegrants.org/>). (GO!EGOR will open for applications during the first week of February 2015.) **Incomplete applications will be ineligible for review or funding.** The application contains the following sections: [1] **Applicant and Organization Profile**, [2] **Overview and Narrative Questions**, [3] **Budget Form**, [4] **Required Support Materials** and [5] **Supplemental Materials**

## GO!EGOR

The Arizona Commission on the Arts uses an online grants application system called GO!EGOR to receive and review grant applications. This electronic grants application system allows the Arts Commission to capture and archive applicant information and allows grant review panels to review applications in consistent formats and structures.

The Arts Commission will not accept applications by means other than GO!EGOR. If applicants do not have internet access, they are advised to contact local public libraries and local arts agencies, many of which offer public internet access. If extenuating circumstances prohibit applicants from using GO!EGOR, they are advised to contact the Arts Commission **at least one month before** the application deadline to make alternative arrangements for application submission.

### General Instructions for Completing an Application in GO!EGOR

Applicants are encouraged to develop responses to all application questions and information requests using word processing software and to copy and paste completed responses into the GO!EGOR application. Within the GO!EGOR system, applicants are presented with a series of questions and requests for information. Some of these questions and requests require applicants to use check boxes and drop-down selection screens and others require a narrative response.

Below are some general suggestions to help applicants navigate the GO!EGOR application process:

- For narrative responses, applicants should use upper/lower case letters (not all caps).
- Formatted text is not accepted by GO!EGOR; applicants cannot bold, italicize or underline text or change font style or size.
- Narrative responses are limited to a maximum character (not word) count. Note the maximum number of characters before developing narrative responses. Applicants will be notified if the maximum character count has been exceeded.
- For numeric amount responses, enter only whole numbers (no decimals, commas or dollar signs).
- Applicants must tab or mouse from question to question. When an applicant hits “enter,” the system will save the page.
- GO!EGOR “times out” if an applicant remains on one page for an extended period of time. To avoid losing work, save often.
- Once submitted, applicants can no longer make changes to their grant application(s).
- Again, applicants are encouraged to develop responses to all application questions and information requests (including budget information) using word processing software, wherein applicants can spell-check and monitor character count. Applicants are further encouraged to save often and, once responses are complete and edited, to copy and paste responses into the GO!EGOR application.

### [1] Applicant and Organization Profile

If you are a new applicant, GO!EGOR will prompt you to create a user profile and an organization profile. If you are a returning applicant, you will log in using your existing user profile and update your existing organization profile.

**Applicants to the Arts Learning Grants for Schools program are required to provide and maintain the following contact information:**

- Program/Project Director – a contact who is directly responsible for management of this grant application. This contact must be an employee of the school or school district applying.
- Authorizing Official – a contact with authorizing authority who is legally able to sign contracts.

In addition, applicants are encouraged, but not required to provide a third organization contact.

### [2] Overview and Narrative Questions

- **Artist/Company/Consultant name(s).** You will have an opportunity in the narrative to further describe the artist/company/consultant. (200 character maximum, including spaces.)
